FYI re: Nunes Bill.

I still haven't heard what happened today.

Mike:

Thank you for the strong Administration statement opposing the Nunes bill. We have all had a very busy week preparing for tomorrow's votes. I thought you might be interested to see a small sampling of the many opposition letters that have come in. In addition, thousands of action alerts were sent out by national conservation groups today and already thousands of emails have been sent in to House offices. But I am sure Rep. Nunes will be spinning this just as his office has been doing all day today. I am copying some of the alums from the San Joaquin River settlement effort on this email. Given that Westlands and Kern signed the "Blood Oath" promising to support the Settlement Act, and Rep Costa and Cardoza were lead authors of the Settlement Act, the fact that so many of them are now supporting HR 1837 says something to those of us in the conservation community about what it means to reach agreements with folks from the San Joaquin Valley on a water dispute.

Sincerely,
Hal
